Global Access

At a time when we collect more and more information, its proper organizing and storing becomes a real problem. It seems that no matter how modern and powerful your PC and how large and fast your hard drive, you still face the problems of limited storage space, transfer of files from one location to another, easy sharing of information with others, and the off-site backup and protection of sensitive and critical data. And now, all these problems are instantly solved with affordable and friendly **eDocsOnline.com**!

This virtual storage space, specifically designed for your web browser, brings you not only the freedom to access documents 24/7 anywhere from any Internet-connected device, but also allows continuous availability of your documents, files and other materials, their rapid delivery, and their easy and quick search. Moreover, you should not think any more about backup. We will do it for you. Your documents are secured, virus free and protected from any disaster.

You can choose between two versions, that are adapted according to your special needs.

Individual version is for individuals who seek secure and private space on Internet for storing and managing documents.

Business Version is specially designed for small businesses who seek secure and affordable workspace to store, access and distribute a variety of documents from any location, at any time.
